

## Directors Report for March 13, 2013

I have spoken with Pepsi and worked out with them to have the beverages delivered directly from them. We will not only be saving the price of gas for traveling to Sams several times a week, but they will be giving us a new double door storage fridge, pricing sign board as well as some other item. I have worked out the same for our ice cream and snacks that will also get us a new freezer, chip racks etc.

Matt DeElba has begun working for the season. With the weather he is starting out on a part time basis until there is more that can be done. Already the garbage cans have begun to be emptied regularly and some cleanup begun in the pool house.

The first few pool day pass gift certificates have been distributed. There are several little safety measures to insure they are not copied as well as a spreadsheet that will be with the lifeguards listing who each original certificate was for.

The Easter Egg Hunt is scheduled for the first Saturday in April. This year we have asked parents at the schools to donate a bag of candy if possible, hopefully the help from the community will help us make this year's hunt more successful than ever! If anyone has a location they think may be willing to donate some prizes please let me know and a letter will be drafted requesting the donation.

For anyone who isn't already aware, Council passed our budget request for the new grandstand fencing. Construction will begin within the next month; I have asked that they replace the backstop first so as to interfere with Girls Softball as little as possible.

Before purchasing new chairs for the pool we are attempting to have local businesses donate them. Each business will receive a letter offering a plaque with their business name attached to a new pool chair in exchange for a \$250 donation. If this plan falls through new chairs will be purchased by the Borough. Again, if anyone knows of a business that may be interested in helping let me know.

This year in addition to the camp USA Sports will be holding "Soccer Squirts" classes this spring for younger children. The final flyer will be placed online this week and the first class will begin mid-April. The classes are for preschool ages with and without their parents. They will be paying us our usual field use fee for each day classes are held.
